Reference: This is a Citizen's Request within Foreign Policy; Covid-19 and Biological/Biochemical Warhead Storage Disarmament Diplomacy. This is a SchoolProjectPeaceMission.com commentary.

Commentary: "Why does planet Saturn not have an Earth like planet nor a Mars like planet inside its beautifully colored outer rings?"

To the People of the United States of America:

Ladies and Gentlemen! The following is an opinion, my opinion, and a world opinion, on one approach to solving our United States of America's and World's quest to "Overcome Eternal War" through continued Bio-Chemical and Bio-logical Weapons Disarmament. The first Biochemical Weapons Convention of the now United Nations has grown ever since being signed in Geneva in 1925.

That original effort was formerly known as; "The Convention on the Prohibition of the Development, Production, and Stockpiling of {Biological} and Toxin Weapons, and on their Destruction".

That effort was again opened for signatures on April 10th, 1972 and entered into force on March 26th, 1975. By 2017 this effort had formed almost universal membership with 178 State Parties and 6 Signatory States in agreement world wide. Again today; Wuhan, China is the focus of great study because the Covid-19 Pandemic was first recorded in Wuhan where a stage-4 Bio-Chemical weapon storage facility also exists. Our collaboration with China is in studying all possible; unintentional, biochemical/biological releases in that Wuhan stage-4 storage facility. Our first step and presently active interaction with China is to prevent any and all possible future biochemical/biological catastrophes. Sir, I must add one Counter Intelligence question to keep the China/USA dialogue two sided: Do we; the USA, have an infrared or nuclear based satellite surveillance system that can detect employees inside brick and mortar buildings with AI; artificial intelligence, translating written and voice interaction, such as the Wuhan Stage-4 Storage Facility? Could such a passage of elements interacting in time and space have formed a temporary containment breach of observed elements stored there? Not that our USA did, but modern tech could and should not sneak that peek behind all that brick and mortar in the future. The future is all we have to look forwards to for a very long time.

I must ask you to look closely at the AI; artificial intelligence, that passed "R & D" clearance for the automatic piloting of the Boeing 737 Max passenger aircraft that has met tragic in flight consequences. Where else did that particular AI implementation of elements become standard and classified? More specifically, are there any classified top secret applications of that implied surveillance technology that uses a like generation of guidance technology in our newly formed Space Force?

I now open this Counter Intelligence dialogue commentary overview with an open hypothesis as to why this Covid-19 Pandemic is so strong, viral, deadly, and NOT of a man-made biochemical/biological origin.

Hypothesis {C-19}: Covid-19's origin is as natural as the origin of other viruses and other diseases like polio, mumps, measles, whooping cough, and the flu. The only difference is that Covid-19 was formed during; within, a stronger more recent evolutionary hip-bump of sorts from an outer galaxy; formed from an inter-galactic contact in outer space; such-as stars from two different galaxies; our the Milky Way and another galaxy, colliding.

>>> This reference of stars colliding as the cause of Covid-19's potency is only a theoretical similarity of a deep space occurrence that could have sponsor Covid-19's deadliness. Two galaxies; one incoming and the other our Milky Way. The incoming galaxy hosting only potential organic/cellular life formation and our Milky Way. <<<<

We have seen stars from other galaxies colliding with stars in our outer galactic areas many times via the Hubble Telescope and other such deep space telescopes. This is referred to as a natural evolutionary process affecting the micro bionic stage of existence, bacteria, and viruses on the Earth as Earth reaches beyond the evolution of species to develop technical evolutions/advancements year after year. Again, "If" Covid-19 is a manmade biochemical product its origin will be identified under such an open multi national biochemical/biological research study referencing all Stage 1, 2, 3, and Stage-4 storage facilities developmental records. Mr. President Joe Biden, I submit this overview for your interpretation. World-wide! Sir, herein you will be drawing technological questions into focus within a classified status that you Sir; not I, will be made aware of.

With your approval I will now close my presentation with an inquisitive question as to why the planet Saturn has no earthly substance within its atmosphere; such as mountains, valleys, deserts, forests, etc. Herein I will be drawing us towards "Unknowns" that we the public and international space studies will uncover and learn about as we continue to interact as peaceful international neighbors. Our United Nations Policy is and will always be a "No First Nuclear Strike Policy".

Question: Why is there no Earthly core of substance inside planet Saturn's atmosphere and such a colorful set of equatorial rings?

Hypothesis (PS #1): Planet Saturn did evolve some 2 times longer than Earth; as Earth has more recently become Created along side evolution. Yes, perhaps Saturn never hosted a human race to farm oil, natural gas, etc. Thus, after Saturn had drawn its oil, natural gas, etc. towards its fiery core of "Very Light of Very Light"; elements as of our original sun, it exploded sending its water and solid core parts into its outer orbit and beyond. Now, we know that area as the Rings of Saturn.

Hypothesis (PS #2): Planet Saturn did evolve some 2 times longer than Earth; as Earth has more recently become Created along side evolution. Yes, perhaps Saturn did host a human race to farm oil, natural gas, etc. Perhaps planet Saturn did surpass our status quo of technologies in their Saturn based technologies. Perhaps those Saturn based technologies reached an international competition in AI; artificial intelligence, guided laser weaponry systems to destroy; not farm, incoming meteorites. However, something went wrong with that Saturn based AI

guidance system and those AI guidance laser systems turned on each other and destroyed all the substance except water that naturally left Saturn's inner gravitation field to naturally form the Rings of Saturn.

Hypothesis (PS #3): Planet Saturn did not evolve some 2 times longer or in a similar way as our Earth has reached our present day status.

Confusion Resolved: As to what time period 2-times longer than our time on Earth is being brought into view.

"I asked Google":

#1: How old is the Milky Way? <> Answer:

Our Milky Way is 13.6 billion years old.

#1-A: Our Milky Way collided with neighboring galaxy

Gala Enceladus 10 billion years ago.

#2: How old is Earth? <> Answer:

Earth is 4.54 billion years old.

#3: How old is mankind? <> Answer: The evolution of human history

started with Neanderthals only 30,000 to 250,000 years ago.

#4: How long is an Ice Age? <> Answer: Our present day Ice Age

began warming some 11,000 years ago.

#5: Adam and Eve may have lived only about 11,000 years ago.

#5-A: Earth has hoisted 5 major Ice Ages over the past 2 billion years.

#5-B: Earth's most recent Ice Age started 110,000 years ago.

Certainly you can see $250,000 \overline{) 4,540,000,000} = 1,816$ Times.

There again you can see $30,000 \overline{) 4,540,000,000} = 151,333$ Times.

Therein we can see planet Saturn conceivably hosting evolution and God some 2-times longer than Earth has hoisted evolution and God.

Our President Biden is the one person whom can start this requested study of our USA classified technologies now available and under "R&D" development for our United States Space Force. Our United States Navy has an active futuristic Anti-Aircraft Laser Defense System that is as futuristic as I have ever dreamt technology to achieve. This is a good thing. From my unclassified status I pray there are no USA infrared satellite laser based surveillance technologies with active AI triggers; or manual, now contaminated with biochemical/biological contact at this time of review during this 2021 Biden Presidency.

Certainly, we must confirm that any intentional use of observation/surveillance technology using or addressing biological/biochemical elements has/have been officially condemned by international law or could otherwise be built and objectively be deployed to cause a far worse final population control, far worse than our present Covid-19 Pandemic.

God Bless our USA, Sir!

Closing Commentary: "Conflicts of Opinion" exist even about Bible verses such as Matthew 28:30 the "End of the Age". Known as the "Great Commission", the last sentence of Matthew 28:30 reads: And surely I will be with you always, to the very end of the age. Despite the contemporary "Separation of Church and State" we live in the year of our Lord Christ 2021. We live during the waning of our present Ice Age. Most people think of this contemporary time period as Global Warming. Again, not all bible translations agree with the above last words of Matthew 28:20 found in my TNIV Bible; Today's New International Version. This TNIV Bible was a gift from the Space Coast Seafarers Ministry in Cape Canaveral, Florida in 2005. I was a Merchant Marine.

I would like to give my testimony on Matthew 28:20.

Christ did stay with us in Spirit through the thousands of years since his birth and death. I am Mr. Nick. I find it very interesting and very comforting that every written language known to mankind was written during the waning of our present Ice Age. This same ice age is the very same ice age Jesus Christ lived in.

Buddha was born almost 579 years before Jesus.

The purpose of this commentary is to move

Wuhan and Beijing into neutralizing

their bio-chemical and

bio-logical weapon

Closing Prayer: Lord Jesus Christ, we pray that you heal the political divide that has surfaced during the Covid-19 Pandemic of 2020/2021. Help us administer the cure here in our USA and all around the world. Help our world of many nations, many religions, and many governments overcome "Eternal War". Help us love our neighbors. Help us study and help us learn. Teamwork is Leadership. Help us study, learn, and work together. Help us understand that every day, week, month, year, decade, century, and through millenniums we will form a more perfect union. Amen!

May the Force be with you!

May the Force be with all of us as we overcome Covid-19 as one!

May the Force be with all of us as we overcome "Eternal War"!

Respectfully yours in Christ @ Sea & @ Home!
